A GROUP OF SALVATION ARMY IMMIGHANTS ON THE "KENSINGTON,"

HE S.S. Kensington, during 1995, has conveyed to these shores no fewer than 6,599 sonis out of the 13,000 persons who have immigrated to Canada under the auspices of the Salvation Army this year,
These will hear with considerable regret that the good ship went ashore

whilst threading the intricate channels of the St. Lawrence in a blinding snow sterm. We are happy to say, however, that no lives were lost in connection with this accident, and that there is every possibility of the ship being got off.

#### A Touching Police Court Story.

A little woman, white-faced and down and out, sat in a police court. But when she told her story, it was a fruitless attempt at self-justification. runness attempt, at sciri-passace-annier trial was pestponed, and that afternoon her husband met the Probaticarry Officer, and asked if she would not call on his family. His Annie had begun to drink three years ago, and had gradually gone down until she had seld all her nies cioties to satisfy her craving, and within the past few weeks had adopted the common prostitute's methods in order to obtain money. Her treatment of the children was cruel when intoxiented. So Capt. W— went to see the children, end iound a typical drunkards home, unkept and so desolate. A dear little womanily gui of fourteen years met her, and when the Captain explained that her papa had sent her, she scened assured, and told thus story of her mamma's sin, in so far as the drink was concerned. Her little eleven-year-old brother has hip disease, and his leg has to be warmed and straightened before he can get out of bed; but often sie would compel him to get out without this treatment, and when them ell before they went to mer trial was postnoned, and that

"If your mamma was sent to a place of confinement, how could you keep nouse and keep yev-rself and orothers in school?"
She said: "I have done it since I was twoive years old!"
She is a real little Christian. We talked of Jesus' love and power to save irom sin, and prayed to Him for her mamma and the family.
When the mother's trial came off, the judge, who wanted to give her a chance, put her on probation. Her husband assured me of his determination to do his best to keep her from a continuence of that life. He said. "She knows the way, but is weak."

At the Social Annual meeting of the Salvation. Army in Cape Town, Mr. J. W. Jezger, M.L.A., said:—
"I may just very briefly explain to you why! am here on this platform. It is the first time I ever attended a Salvation Army meeting. During the last twelve months! I have come into touch with the Salvation Army a good

deal in connection with an inquiry concerning a tamily who had recently come to South Africa. As soon as I gor it, I placed it in the hande of the Army, and within a day or so they had found them ont, and it a very distressful circumstances. The husband was incapacitated and the wife was trying to earn a living by doing washing, with the children running about. Through the agency of the Army they were easisted until we were noble to get the man some work, and now he is earning his living again. This is what I call real, good, practical philanthropy, and it is to express my appropriation that I came here to-day. —South African War Cry.

#### A Hot Time in the West Indian.

The following is a good story from the West Indies:

The Town Hail at Port Maris was crowded, and the atmosphere stifling. This, however, in no way interlered with the meeting, and as Colonel Lindsay called on the fifty-seven men and women who had been converted during the past three months, and who wished to become soldiers, to stend to their feet, the feeling was intense.

mand to their feet, the feeling was intense.

There they steed, faces all eslow with holy excitement, and yet, withal, a solemn carnestness which communicated itself to other hearlet, and as the Colonel -accepted their declarations and sware them in under the dear old flag, we all felt that God had indeed been working in Port Maria.

One dear woman cried out for salvation, while the whole errps united under the flag in a overant for whole learted service, and since then work learted service, and since then work that forly-two others have come to the gross for pardon, making 178 in three months.—West Indian War Cry.

#### Blackfriere Breckfest Story.

A butter who left his situation in a very abrust menner some time ago was found amongst the penitents at the Free Breakfast at one of our Shelters. His life proved the genuienness of his conversion, and after woments in the Shelter he expressed ris desire to return to his old master. An interview was accordingly arranged, and he humbly apologized for his misconduct. His employer secepted his story and apology, and reely forgave him, teking him back into his employ right away.

A short time saferwards he learnt that his master was in need of another employee, and, remembering that during his Shelter days he had come across a man who was "down on his look," and who was also desirous of leading a better life, he promptly auggested that his employer anoult take on his old acquaintance.

#### PRAYER TOPIC AND OTHER MATTERS.

By Mrs. Blanche Johnston, Secretary. The Prison Work.

We present the interesting Prison Work as the Prayer Topic for this

The prisons were opened to Army efficers in upite of peculiar obstacles in answer to the carnest prayer of one or two whose hearts had been touched with the great need of the criminals and the conviction of the Army's unique facilities for helping them. They pleaded with God and went to work confident of His blessing, and mighty deeds have been done and wonderful results achieved. To Him be glory. Let all renders pray that the officers and work may be increasingly blessed.

The suggestion was no source made than it was agreed to, and Colonel Lawley, for he was the officer in command of the corps, led ma through the streets and through the Fair Grounds, making the en-nouncement as above. This proved effectual, for not only did we retain the young converts and keep them from the temptations of the Fair, but drew into the hall a growd of Fair goers, and won souls for Christ. one man being so gloriously freed from the power of the devil that he rushed from the meeting, telling the people

Then a young men, not long out of the Training Home was recently sent to take charge. He went in with all the freedom of action that is the portion of the Salvation Army officer, and set himself to devise means of getting the people into his hall. He started his tactics by taking the penitent form into the Gunday night's open-air meetings. The pussers-by wondered what was up, but when a couple of drunkards knelt weeping at this said

Then a religious journal contained this paragraph:

this paragraph:

"Perhaps no Christian organization is more alive to the necessity for novelty in presenting the grand old atory of redemption than the Salvation Army. Not long since one of General Booth's fellowest preached a powerful sermon from a coffin planted upright on the platform." (This was a little lassie Captain, who borrowed a coffin from an undertaker for the purpose.) And now we have another Salvationist delivering a similar address in the striking, if not very handsome, garb of a prison convict.

striking, if not very handsome, garb of a prison convict.

Preacting in Prison Garb.

"The officer in question is one of the most energetic and enterprising members of the Salvation Army in this locality, and he had arranged to deliver an address on the fruits of sin. Then he conceived the idea that the interests of the subject would be greatly heightned if it were illustrated in some realistic way, and due course the Captain on a recent Eunique diessed in the well known garb of a convict, pientifully marked with broad arrows, carrying a gallows. Quite a large number assembled to witness the novel sight, and in more than one case the preacher's message went home."

Now, what has been the result of all this? The little hell, accommodating three hundred persons, is now crowded on Sunday nights, and a large

crowded on Sunday nights, and a large number of people have been converted and made into soldiers, who perhaps would not have been reached in any other way.

I have reprinted the press notices of the Captain's factics in order that my Salvationist renders may see how the public regard them. It will be noticed that the references are most sympathetic, because it is easily seen that the shroud, the prison garb, the gal-lows, and the "West End walker" (whatever that may imply) were all means to an end. There was method the madness.

I can quite imagine what a sensation would be caused in some of our small-er Canadian towns if the Captain paraded the streets carrying a gallows, but it is also casily seen how admir-

but it is also easily seen how admir-ably such a thing could be made to emphasize the spoken word.

I cheuld like for some of our more enterprising spin to to try something on these lines, and then let me know how they aci. Let us provoke one another to good works.

Modern Miracle-Working.

But perhaps the most powerful help of all to the obtaining of a crowd of people to listen to the wonderful story of the cross is to have an un-to-date working of miracles going on in your building. This was so in the days when the Saviour was upon the earth. When He healed the sick, and worked His wonders, the crowd thronged Him. The marvels wrought in such meetings as that at which the sick of the palsy. . (Continued on page 7.)

as he went that he was delivered, and going to the homes of his relatives, aroused some of them from their slumbers, making known his new-found 10y, and preaching Christ unto them.

Present-Day Methods.

But it may be said these methods are not effective to-day; people have grown used to the peculiarities of the Salvation Army. That is a contention with which I absolutely disagree. Principles do not change—numan Principles do not change—human methode mey—and the great under-lying principle in all the Army's methods his ever been the presenta-tion of old truths in a new form—the arousing of people's curiority; and through it reaching the conscience. One of the corps in London Division was at one time a proverbially hard nut. The ball was a humble one and

penitent form, the few Salvationis's almost got lost in the crowd that gathered round.

Addresses in Character.

Then he conceived the idea of pre-Then he conceived the idea of pre-paring special addresses and dressing up in character to deliver them. These methods arrested attention. #### CAN YOUNG PEOPLE BE SOUL-WINNERS?

By Capt Hebberdon.

Seated one day upon a bench in one of the parks for which Detroit is so famous were two people one a young lad in the fresh bloom of youth, the other a man of about fifty summers, dirty, diseased, and feeble, bearing all the marks of a dissipated life. The boy, who had recently found Christ as his Saviour, ventured to approach the sider man about his soul, and was met with this sherp rebuff:

"What right have you, a mere boy, to talk to me about such things?"

Have not the young any right to work for their Master? Have they no opportunities?

Yes! There is no one who can be had in the fresh bloom of youth, the

work for their Master? Have they no opportunities?

Yes! There is no one who can be more used of God than a thoroughly consecrated buy or girl.

Did not God speak through little Samuel and give him one of the weightiest messages ever given to man to dcliver? Duvid was but a ruddy youth when he brought deliverance to a nation. Jesus at twelve years of age said, "I must be about My Father's business." Yes, the young have work to do.

business." Yes, the young have a work to do.

A little girl, seven years of age, was converted in a junior meeting, and rounding home she told her father what had happened. The fether began to fease her, and said, "You are too young to get saved." but she, nothing daunted, said, "Papa, I am, I know I daunted, said, "Papa, I am, I know I

deunted, sett., Tapa, I man ami."

Now, in the same village lived a very wicked, drunken old blacksmith, named Joe. No one dared to go near him to speak to him about religion, so the little girl's inther said, "Now, if you can get old Joe saved, then I'll believe you are converted; otherwise I won't."

so the little gain's name, and the little one led of wort."

The little one said no more, but presently she stele away down the street to the blacksmith's shop. Joe was there smoking his pipe. "Hello, little 'un, what do you want?" he said as sha peeped in through the helf-closed door.

Encouraged by his remark, the little child ran in a claiming. "O Joe, I've been converted in the meeting, but pan says he von't believe it unless I can get you saved too." Then putting his little arms ground his neck said in her childish si uplicity, "You will be converted and love Jesus, won't you?"

No one had ever spoken to Joe like this before, his heart was broken, and thus the little one led old drunken Joe to Jesus. Surely a little child shall lead them.

I said the young boys and girls hed great opportunities, but in order to use them for the best they must be thoroughly consecrated to dod.

It has been said, "It yet remains to be demonstrated what God can do with a soul absolutely given up to God." I he believe it.

As a young man writing to young people, let me urge upon you the necessity of heing out and out for Gud. No one is more despised by his companions than a coward or a hypocrite, but every true men admires him who has the courage of his convictions and deres to be a Daniel. It must have then great courage to Daniel's part to say his daily prayer, when he knew you doing a lion's den awaited him. Yet he hed faith in his God and congerted.

They are almost entirely of the Ma-hommedan belief.

Clesely allied to the Arabs are the Moors. The social function of a Moorist described:

#### Speed Wanted.

And yet who is there in the world so blind to the value—aye, sometimes

the vital necessity-of quick mails to wish to see their pace reduced? Whatever may or may not be risked, the meil must go at the utmost speed at-tainable, because everyhody knows that a day's delay in the delivery of a may carry with it the most dreadful consequences.

Oh, that we could get any such impression of the speed required with the message of salvation for every perishing soul! Perhaps we Salvationists have all get too much accustomed to the Saviour's messages to see as clearly as we should their desperate urgency. Just now I have the advantage the presence at my elbow of a Japanese who has just got to know Christ and the Army. He plunges in-to every opportunity he can get to talk of Christ, either in public or private; has gone in for hawking on the street for a living, so as to be able to leave all any day we will have him, and cannot at all understand why he can-not become a Cadet in a week's time.

To see him running sinner after sinner up to the penitent form is to get some ides of the speed with which the world could be brought to Christ if His messengers all understood His "Go out quickly," as they should.

#### Godly Rushers Required.

Now, do you really believe that you carry a message from God, upon the prompt and correct delivery of which the souls of many may depend? Just think the question out, and recall to your mind the cases in which you have yourself seen almost despuiring sinners pluck up courage and come out in the open-air ring or the crowded meeting to seek mercy. There can be few Salvationists who do not know that God's mail, properly delivered, can arouse and bring to their knees the very stoutest of the King's en-emies. And what I have seen of the people's attention in the huge openair rings on the quietest terraces of Canada has left me no sort of doubt as to the speed with which the heavenly mail could be got right into many hearte, if the messengers could only be got into the proper heat, the record mood, this winter. Oh, for some godly rushers!

#### Miserable Excuses.

And surely Canada, of all countries in the world, ought to be rich this winter with met, and women ready for rushing. What risks people will run, what miseries they will bear, with a laugh-or rather a grumble-for the change of a few extra dollars. Is the Kingdom of God-and above all the Salvation Army-going to be found short of men and women of enter-prise, where it is a question of that greatest of all certainties, the Guspel being everywhere made the most of?

But oh the miserable excuses that are set up by those who should have been steaming ahead with God's mail long ago! To think of people who have sung "Hark, the Gospel news" thousands of times, saying that they are not sure that they were ever called to sound it out! "No call" to leave home anyhow-as though messages could ever be delivered without leav-ing home! "No gifts" to carry a message that children-aye, and almost idiots-have so often carried with eternally blessed effecti,

You have no need to fear that anybody is going to urge you into a service that you cannot carry out. for our officers are not fools, even if any of them seem to be such. But you must know how very many in the Army who have frail bodies, have vet heen able, by God's help, to rouse whole cities and even countries for Him.

As long as people around you are going quickly to hell Jesus will go on saying, "Go out quickly" to their rescue, And the biggest risk you can over run is the risk of His saying "Ye did it not."—R.

It is certainly a pitiful thing whon the wife is bereft and left to support a family and it is no less pointul when the busband is left with a group of little ones who have to be nurtured well as fed.

#### Uncared-for Little Ones.

Yet there are many even in Canada who are so circumstanced. Amongst the emigrants shown in the photograph on the front page is a grand-mother who has gone to the Northwest to look after the nine motherless little ones of her son.

But all notherless little ones have not a granzy, neither have all fatherless children one who can earn for them their taily bread. But for some of the most distressed of parentless or neglecied children the Salvation Army

acts as both father and mather.

In a commodious house, in a quict in Tironto is the Christren's It is not a Greche nor a Shel-Home. ter, but in the best sense of the term a Home.

It has been called into being by circumstances which the Salvation Army is continually brought face to face with. The following is a sample

The wife of a young couple was taken ill; the nature of her malady was such that she had to be removed into the hospital, leaving a little boy to the care of the father, who had to

go regularly to his work.

The man's earnings would not admit of his hiring a woman to look after the baby and himself, so he decided to give the child into the care of a boarding-house keeper, who offered to look after the little one for so much.

#### A Drunken Baby.

One day the father called to see the child, and to his dismay found that some drunken boarders had given the little one whiskey, and sat in the room making sport of his drunken antics.

The father immediately took away the son, but what to do with him was a problem, for the young wife got no cotter; in fact, her disease is now regarded as being incurable. In his perplexed despair he turned

to the Salvation Army, and the broken-hearted man explomed his dilemma to Mrs. Counts, who at once took the boy into the Children's Home, where, with seventeen others, he is properly boked after in every particular.

Every one of the children has his or her story, and all more or less painful and indicative of the great need thou exists for such an institution as the Children's Home of the Salvation Army, which we believe is the only one in the Dominion.

The need is very present for this work to be extended, but in common with most other phases of Army work, the lack of officers and money bars the way.

The Home is very conveniently situated in a tree-shaded street, and is fairly commodious for the accommodotion of the seventeen little nestlines who make the walls resound with their shoutings and merry laughter. Same of the inmeter.

May we introduce our readers to a few of the little ones who reside in this Home?

Here comes Bob. He is muking a great noise with a toy drum and is trying to sing a chorus. A bright, intelligent little fellow he is, full of life and of a very enquiring mind. His mother died some time ago, and his father sent him to us to be cared as he was a working man and could not remain at home to see to the little fellow bimself, and he had no elder children or relatives with whom

is could entrust the little chap.

Upstairs in the play-room, a nica lightsome and oiry apartment, we are introduced to a quite a bevy of happy youngsters. This little girl who comes forward engerly to shake hands is Mabel. She is now eleven years old; and has been in our care since she was a toddler of three. Mabel says she is converted and means to be an Army officer by-and-bye. CAPTAIN MEFETRICK AND THE "RADICAL OURE."

A spiendid audience awaited the entrance of the genial Trade Secretary on Thorsday, Nov. Siii, and the most hearty interest was evidenced by all during the meeting.

The prayer of Ensign Gillem voiced the desires of the majority present as he asked that "we might receive help and blessing from the words of Thy servant," and the patition of Erigadier Taylor put every soul into an expectant attitude, as he definitely saked God to "come into this metting and say something to everyone. We promise that what Thou will-say to us we will be obedient to. Show us the patit and we will gladily rush into it."

#### Unhesitating Repudiation.

The reporter, whose assignment it was to call upon Brigadier Stewart was young and unmarried, and with considerable iregidation approached the Brigadier respecting the somewhat delicate subject of the matrimonial But there was no hesitancy on the part of the interviewed in speaking of the subject. She said:

The papers exaggerate dreadfully. We have never helped one in any such matter. That is an affair so personal, and so fraught with good or evil consequences, that we prefer to take no responsibility in such a thing. We should be very sorry if the idea gained ground in England that we are busy in supplying wives to lonely bachelors. Most emphatically we are not, and I am much obliged to the War Cay for giving us the opportunity of saving so as some lew of the girls who have conigrated to Canada, have done so no doubt with the idea of marrying as soon as possible. At any rate, they have rushed speedily into wedlock and the consequences have not always

been happy.
"I must say, however, that these are very exceptional cases, for as a rule the demestics we get turn out to be quite a credit to the country and the Army.

#### They Like Canada.

"How do they like the country as a rule. Brigadier?"
"Well, judging from the many let-

ters I receive I should say the great majority are well satisfied with the

condition of things here."

"Do you happen to have such a letter handy?"

"Yes, here is one just to hand from

a girl. You will see what she says."

This is what the girl wrote, "I like this country very much, and I have a most comfortable and happy place.

letters were handed to the writer, from which the following are extracts: "I um very well situated here, and have so much enjoyed the free life this summer. People tell me that I am fortunate in getting into this family "

Thus writes a lady's maid: "I arrived on Thursday and am feeling fine. The change is doing me a lot of good. My lady continues to be very good to me. I expect to go south for the winter."

The War Cry man was satisfied, so far as the girls were concerned, and hazarded this question: "Now, what about the employers, Brigadier; are they satisfied with the people you send them?

Employers Like Army Help.

"With very few exceptions, they are delighted. This lotter is a good sample of the whole: "I write to thank you for sending me such a nice genoral. We are getting along very nicely together. Please find five dollars for your Poor Fund."

You have a great many applica-

tions, no doubt?"
"Yes; a great many more than we can supply. We have applications from all over the Dominion, and for all sorts of help. Here is one specimen: 'May I ask if you can assist me with some hired help? You have formerly sent me such nice people, and I prefer members of the Army to any others. I want a good strong woman for the kitchen, and a man with understands horses and can see to buggage." This is another: "Have you a working housekeeper you could send me. I had Mrs. — last year, who proved most satisfactory."

I may say Mrs. — got married, but entirely on her own responsibility. Of course many of the girls get most happily settled down as housewises, but that is their own business. We can only give them such advice as may seem wise in their own particular

before the eyes of the world the power of the Gospel to convert great sinners into saints, the crowds will gather, and be full of interest in all that takes place. Under such influences, the most ordinary things bring about the most extraordinary results. This has been so throughout the whole history of the Christian church, so far as my own researches have gone, and it will continue to be. .

I need not say that whatever extraordinary methods are used to lay hold of the enconverted growd, they must be of such as can commend themselves to the very best that is in us, and he in line with the teachings and principles of the grand old Book we love. that will disarm ridicule, rob criticism of its power, and hear upon it the impress of real earnest, out-and-out devotion to the deepest, highest, and best interests of the people for whom we labor and toil.

Commissioner and Mrs. Coumbs and their Staff arrived sulely in Toronto early on Sunday morning, having been traveling since Tuesday night from Newfoundhard. The Commissioner bore the strain of the Eustern Cempzign and arduous journeys remerkably well. The long homeward journey was of course very trying to Mrs. Coombs, but taking the trip in all she stood it exceptionally well. The Commissioner was at his desk ou Monday morning as alert and full of energy as though be lead been on a long rest.

Two days later the Commissioner started on his journey to the Northwest. Accompanied by Adjt. Morris, his Frivate Secretary, he paid a visit to Tisdale, concerning which we hope to give the Commissioner's impressions in an early issue. A few days later Mrs. Coombs, accompanied by Lient-Colonel Pugmire, leit Toronto to join the Commissioner at Winnipes. This campaign will necessitate the absence of the Commissioners from Headquarters for more than a month, during which time they will travel seven thousand miles, conduct twenty-seven meetings, with numerous interviews thrown in. God bless and preserve our leaders.

Lieut-Colonel Pugmire, who has kept us so well informed as to the progress of the Commissioner's ampaign in the East, will render us the same valuable service for the Mythwest. On the day of his arrival from Newfoundland he conducted prison meetings at the Morcer and the Contral Prisons, at which he saw forty-five prisoners kneet to God for pardon,

According to the daily paper, the defender of Port Arthur has fallen upon evil days, for a Reuter's telegram says that Lieut-General Stoesset, the defender of Port Arthur, is in such financial straits that he has applied to a charitable institution for wounded soldiers for assistance to enable him to employ a gerwaut. The officers of the institution asked the General to produce a medical certificate showing that his health requires the services of a servant. Such is the vanity of earthly glory and the brevity of "undying fame" that was said to be his at one time.

We are sure that all our readers will sympathize with Adja. Barr, who has recently been boreft of his father, but our of the bitterness of death must be sweetened by the testimeny which our comrade's father was able to leave behind after many years' experience of Christ's salvation. His last words were, "Father, come and take me home!" The Adjutant, in a personal letter to the Chief Secretary, touchingly remarks, "His life's journey had wearied him and he wanted to be at rest."

\* Commissioner and Mrs. Cosandey recently attended the International Congress respecting the "White Slave Traffic," which has just been held in Paris. In one of the sittings which took place at the Eiyeue Palace the Commissioner had the honor of being introduced to M. Fallierer, the Tresident, of the Republic.

According to the local paner, finsign Miller and Capt. Snow had a great farewell from Woodstock, as will be seen from the following cutting: "Their farewell meeting, which took place the Sundey previous to their departure, who very largely attended, the burnacks heing packed to the utmost copacity. It was a very impressive service: "Citizens as well as the addiers, testified to the good work done by these two noble women, and all expressed grief over their departure from Woodstock. The officers respected in suitable works, thanking the good people for their kindness showed towards them while stationed in Woodstock."

No doubt, many of our cannades who figure in the group on the iront page of this issue would like to possess a copy of the original photograph. They can obtain one from Mr. Clark, 185A. Anteing Street, Montreal.

A Message from the Dead.

Rarely has a more powerful or extraordinary indictment of the horrible drink trade been brought before the public than that of the unhappy young man who recently shot himself in an Ontario city. On his body the coroner found a message entitled, "A Word to Young Men," in which he calls drink a curse. It had ruined him and was ruining more young men than any thing. He asked young men to shun bar-rooms and called on tem-perance workers and ministers "of all the churches in our fair Dominion he they protestant or Catholic, to take an active step in suppressing the sale and manufacture of F quor." He besought young men for God's gake to take for at last you will fall as I have. May my fell be a lesson to you which you shall I over forget."

#### Drink and Suicide.

At an inquest recently held at a London, Eng., jail, the deputy governor and medical superintendent said that an enormous number of persons who attempted suicide were received at the jail- as many as 200 or 300 annually. The great majority of tho cases resulted from excessive drinking. In view of these facts, how necessary it is that all, and especially those who take upon themselves the name of Christ, should by precept and example the everything possible to suppress the sale and manufacture of strong drink. There is no doubt that the Salvation Army's attitude towards this grave problem places it in front of the churches, for not only is this organization more outspoken and more aggressive respecting the drink traffic, but no mie can be a member of the Salvation Army who uses intoricating liquor. We sincerely trust that the young men amongst our readers who may inculge in drink will take well to FROM OUR VIEW-POINT.

The success that has attended the Army meetings in Canadian prisons shows what can be done in this direction.

#### Old Truths-New Methods.

We direct the attention of all Field Officers to the Commissioner's excel-lent paper on methods for reaching the crowds that appears in this issue. It is instructive and intensiting to a degree, and we should imagine will reach our readers at a time when the weather will perhaps cause those who have more regard for the comfort of their bodies than the welfare of their souls, to prefer their own homes to the house of God. We admire the spirit of a New York Bentist minister who, through conditions that militate egainst a large congregation, has adopted methods that savor somewhat of vaudeville as aids to get a grewd. #### Crusade Against Finery.

A Berlin publisher has set out to do something, and we wish him success, but, as the Scot said, "we hae our doots." This man is organizing a movement against women's finery. He does not believe in imposing a tax on finery, but proposes a crusade by literature, to be carried on by an international league. The league would circulate pamphlets containing photowemen of Paris, New York, graphs of Berlin, London, and other cities, wearing priceless gowns, and letter press detailing their exceer and habits. particularly how and where they spend their money. The aim is a good one, and we suppose it is not for us to disparage the power of the pen, but frankly we have but little faith that any change will take place in the way of destroying love for finery in the heart of any unregenerate woman by any other means than the fire of the Hely Ghost. Salvation is the sovereign remedy.

#### A Reign of Terror.

Pittsburg seems to be in a bed way. Three murders, a number of robberies on the highway, accompanied by viclence, and at attempt at crucifizion is the record of twenty-four hours. The crucifixion was a dastardly thing. It seems that a married woman, aged nineteen, on entering her flat early in the morning was struck on the back of her head. She was then drawn towards the eink, forced into a kneeling position, and nails driven through her hands into the draining board of the sink. Such is the cruelty of a nature debased by ain.

NOTABLE EXPERIMENTS FOR YOUNG PEOPLE INITIATED

The most notable experiment so far initiated by the Chief of the Staff in the interests of the young people in great Britain is the proposed opening of an institute in Glasgow.

Large numbers of young men women, aspecially in the great Surtish city where the tenement westso largely prevaits, are placed at great social and moral disadvantes in being unable to secure suitable lodgings, and in having no place where they can profitably spend their spare hours.

The proposed institute will do a great deal tewards remedying this evil

Staff to provide means for meeting all the varied requirements of these who make use of the Institute. These will be parlors, a reading room, a land library furalshed with che books, a restaurant dining and to probably a www.nesm...

An educational branch may also be added, according to our ability to find suitable officers to undertake the work and to the requirements and inclina-

tions of the young people themselves. In addition, sleeping accommodation will be provided for sixty young peo-

## Holland's Queen Mother VISITS AN ARMY HOME FOR CHILDREN.

we mentioned last week, the Salvation Army in Holland has just been honored by a visit from the Queen-mother to our Children's Home at Naardon. The Queen - Mother was attended by a lady and gentleman from the court, and the Burgomaster of Maarden was also pres ent in his official especity. The party dreve my to the door of the house in a carriage and pair, attended by two officials, and the Queen-Mother was introduced to Commissioner Estill and Lieut.-Colonel Govern at the entrance of the house. In the reception room Lieut.-Colonel Govesna read a short address of welcome. The St. John's Reception.

On our strival at St. John's the Commissioner received a magnificent reception at the station. Although the came down in floods, the office band, and soldiers, as well as a numof friends, wore present. school children sang an ode ei welcome to the Commissioner, and Mrs. Coombs, and Staff, as follows:

"Full of joy wo gladly great vois, Welcome to our midst to-day; We are honored this to inset you, Listen to our helpsy lay.
Welcome, welcome here to-day,

"In this song of purest feeling.
Grateful hearts their love betray,
It is meet our joys revealing.
That we chant this merry lay,
Welcome, welcome here to-day.

The Commissioner's talks to his offito make better fighters and more suc-tessful soul-winners of the one hundrad officers who were privileged to attend. The last will live long in our memories. How near God can't to us while numbers gave themselves afresh to Him for the salvetion of men and the glory of His name.

#### A Hearty Welcome.

The Welcome Meeting was held in the citadel. The St. Juhn's soldiery and friends were not behind in expressing their pleasure at having their leaders with them once more. As they stepped on to the platform there were renewed volleys and clapping of hands. The Chancellor, in a neat little speech, voiced the feelings of the congregation, and on their behalf wermly welcomed the visitors. The Commissioner replied, efter which the writer and his traveling companion, Adjt. Morris, sang together "Where are now those chains that bound me?"

The General Secretary was called ipon for a few words, and this was followed by a most earnest appeal for those who had not surrendered to the claims of God to do so at once. The Spirit set His seal upon that first meeting, a number knelt for deliver-ance. The battle had commenced, and we were in the thick of it.

Last year thousands were fed and comforted through our agency, and this year, we accomplished in this direction. The Provincial Officers will be making elaborate preparations no doubt. It will make the Christmas dinner of the wall-to-do more enjoyable to know that the poor also have some enjoy-ment and comfort.

Following, the Christmas celebra-tions will be the Winter Campaign, during January and February. This also is under consideration. We are noping this year, to do better than heretolore. The Commissioner has in his mind some traveling companies, to specially conduct soul-saving campaigns. It is the business of the Galvation Army to save sinners and we must not be diverted from it by any means. The material ministrations of our organization are very useful and noteble, but we must keep the salvation of souls to the fore. The Winter compaign presents excellent oppor-tunity for the development of the genius of our people in devising new chemes for pushing the war.

It was thought we could have brought it out in November, but certain things have trauspired to prevent this arrangement be-ing carried out. Our young people may look forward to n heautiful paper at the beginning of the New Year. Of course it will be necessary to in-crease the circulation to meet the additional expense that will be entailed in its production. I am pleased to say that already Brigadier Burditt has sent an increased order, as well as Brigadier Turner, of the Eastern Province. No doubt the other P. O's will follow suit. We need writers who can introduce subjects suitable for the children and young people. We must put plenty of life and originality into the new paper. It would be nice if the young people and local officers would communicate at once with the Editor their own views on the matter, especially these who are able to write for its columns.

These meetings were of the highest order. The first took the form of a reception to the Provincial Command-Lieut. Colonel Gaskin, Staff-Cept. Morris and the writer, on behalf of the officers present extended a very warm welcome to Lieut Colonel Rees. The Colonel expressed himself as being delighted to work under the Commissioner again. He declared he had prought his heart with him: Reform he had finished speaking it was manifeet that he had captured every officer. . There were five Councils all told and each seemed to be better than the preceding one. Mrs. Coomba address touched all hearts, many being moved to tears, and although being directed word. Lieut Colonel Rees received splendid welcome. As the writer drew the meeting to a cless more than a score of hearts and lives were laid at the Master's feet for cleansing and

#### The Sunday's Meetings.

The morning meeting, in the writer's coinion, stands out as one of the best of the whole series. Several hundred were present. The Holy Spirit was wonderfully felt and hearts were soft-ened and subdued by His mellowing influence. Tears glistened in many cycs as the Commissioner dedicated to the Lord and the Army the Provincial baby, Grace Eileen Morris. Both the Staff-Captain and Mrs. Morris testified that their decire was that it might grow up to be a winner of souls. We grow up to be a winner or neuts. We dear to believe she will. One after another they came forward for healing and cleaning. But the results of the effort cannot be measured only, by what we saw at the mercy seas.

#### A WEEK OF SOUL SAVING ....

Under the lendership of Captain Thompson and Lieut. Mercer the Holiness Campaign at Smith's Falls is going forward vigorously. On Friday night one soul knelt at the cross, and five more came to Christ on Smidgy night. Two others sought salvation on Holman and the came out for a clean heart on Tuesday.

On Thursday a remarkable testimony specifies was hold. As many as ten were on their feet at once, all enger to tell of what God had density from the cought solvent on the close three sought solvent on the close three sought solvent on and three a clean heart—W. L. G.

Front Elevation of the sheets, still it did not hinder the crowds from attending the atternoor service. I verily believe they would come through fire and blood to hear the Commissioner. The Methodist-College Hell, the largest on the island, had been sedemed, and this was well on filled. It had been announced that the New Provincial Commander would be installed. As the Colonel and his clidest daughter stood beneath the flag the Commissioner charged them to be initially to God and the flag to the very death. A Strenuous Early Time.

Sir William Van Horne has more than once recalled that early time, when it seemed almost impossible that success could attend the enterprise-when the efforts were orcellent, and the needs of departments had all too literally to take off their coats.

One could have seen the president anxiously studying the map, or the general manager, Mr. Van Horne, then a good deal slimmer than he is now, directing the men under him with a certain suppressed flurry and eagerness; or Mr. Monkool, the assistant passenger agent, not daring to let his mind think of large things, in connection with the new institution, which, though it had recaried the western portion of the system as a gift, and twenty-five million acres of

Have you read the previous chapters of our seriel story? If you have not we advise you to read this week's instalment. It is a stirring story of temptation, buvelery, arreat, and imprisonment. We are very unxious that our readers should read this narrative, which appears week by week as it shows up in a wonderful manner what the grace of God ean accomplish, and, incidently, how successfully the Salvation Army conducts its open tions smongst discharged prisoners. If you have read it we should very much like to know what you think of it. Brop us a line.

By the wey, what do you do with your War Ory after you have read life. We heard a good story the other day concerning, the Social Gazette, the organ of the Social Work of the Army published. In England. This is it and old addier of the King, whose services had been rewarded by o grateful country with a modest pension, and who lived in the Ensi End of Ilondon, was necessioned; when the days were bright and sunny, to sit in one of the barying grounds which are to be found in all sorts of out-of-the way corners of the city. He was not a converted man, but had a great admiration for the Social Work of the Army and was: fond of reading the Social Gazette, which he used to take with him to the barying ground, where is could sit under the trees and read of watch the feety, saucy sporrows at play.

He set one day on his accustomed seat when a frowsy, down-at-the-hed young man-came and sat on the same bench. The old pensioner hod read his copy of the Secial Greete, ond sat his was leaving handed it to the young man with the remark that there was some good reading in it. The young man took the journal and began to peruse its contents. The old pensioner went to his numble home.

Next day the sid pensioner again sought his accuetomed seat, and to his surprise found it occupied by the young man of the day previous, who after greetings had been extanged, said that he had rend the paper given to him yesterday, and had liked it well. He had read in it the story of a product son and what was more well. He had read in it the story as prodigal son, and what was more he had done as even that prodigal had done, for on the evening previous he had gone to the Selvation Army Shelter and had openly come out to the morey seat for salvation. He was soming to return to his friends that day,

As the old marrat he thought and thought. Then he came to this self sible conclusion that if salvation was good for that years man, and tor the other people he had read about, there good for that young man, and there people he had read shout, there ought to be something in it for him at any rate, he made up his mind that he would try it. That night he went to the neighboring slum corp, rasde his pears with the Lord, and is good soldier of the King of kings to day. The mean of all this is they you have read the War Cry, pass it or, the they still, and a customer for another cony.

The grandfather appears in the gurden, again whits Charles, who flees into the nouse not knowing that his grandmother is dead. His grandfather pursues him, and in his anger lesion the dead woman in the face. This rouses a tempest of passion in Charles, and he burls a heavy poker at his grandfather, and breaks his leg. Charles is turned out of doors.

After a time, on account of family circumstances, it became necessary that he should seek a fresh abode for himself, and the wife of his employer recommended that he should take ledgings with a young widow of her acquaintance. The widow in question was a woman of about five-and-twenty years of age, whose husband had been an inspector of police. Ear possessed a bicasing of manner, but was utterly unscappulous, and sha so lascinated Charles that he became as plastic as wax in her hends. A Money Famine

A Money Famine.

Like most of her type, the woman was dreadfully extrav gant. She was heavily in debt, an and nice led Charles into financial straits; for as may be imagined, the coman bled him of his earnings preut freely. They both begun to acutaly sel the need of money:

may be linking in the freely. They both begun to actually seed the need of money:

Mrs. Brown—for so we will call her — by means of her hus and's voestion had become familiar with talk concerning burglavies at i househreakings, and also with the stabilishments of the city which were considered to be good game by the riminal class she also knew the various beats and times connected with the nightly watchings of the police.

This knowledge gave her an idea "Charles," she said one evening, "I want money!"
"Do yon?" he replied. "So do I."
"I know where you can get some for the both of us."
"Where?" he asked.

She then outlined a proposal for the robbing of a jeweller's shop that fairly staggered him by iff andactiy.

The jeweller's shop was situated in one of the principal streets of Liverpool, and was absolutely burglar-proof at the front. Mrs. Brown had, however, unitared a plan which contained the elements of encesses. Ehe had overheard her late husband, when discussing with a brother officer how centain establishments in the city could be entered by burglars, describe a method of entry into this marticular joudlou a public-house which adjoined the shop, into the back yard, then scale a dividing wall, and drop into the yard attached to the jeweller's greenler's shop into the yard attached to the jeweller's greenlers. Equally alarmed, the eat jumped ever the well.

Charles anathematised poor hitty—and himself. The returned to his task, and ultimately get cut the panel.

She thus secured evidence that was ultimately to land Charles in a penal settlement.

"Not another such "job" for me?" said Charles. "Shie is not worth it. The diamonde have not yet been taken out of the mine that would tempt me to go through such an experience again?"

The strain upon his nesses had made bim sick. Besides, "See was yet the fear of discovery.

"Don't talk so behyich," succred kirs. Brown. "Here, take this, and come with me."

Bhe gave him a drink and took one herealf. Then, putting the jewels buck in the beg, she bade Charles put on his hat and carry the bag for her to a person whom see know was not above receiving stolen goods.

The value of the hauf must have been very graat, for even the unprincipled "fence" gave her \$1,250 for the "stuff." This mount, with the \$375 in money which the box contained, made up the respectable sum of \$1,625.

The number of globular sovereigns began to get leen.

The life he new lived smand Charles to grow more hardened.

The Second Burglary.

Mrs. Brown suggested a visit to another establishment.
Charles agreed.

The building was easier to "do," but the snoils were less, the plander realizing about \$200. One item was a large Inverness cloak, which Mrs. Brown pledged at a pawn-shop.

This cloak led to their undoing, for the pawnbroker's assistant, on folding point agarnest, heard a crisp crackle proceed from it. He felt the cloak where the crackle was heard, and something stiff responded to his touch. He directed the attention of his employer to the matter. Then then unipped the lining and a new E-note was exposed to view.

The pawnbroker had a notion that here was something wrong about the effair, and advertised the cloak and note in a daily paper. A member of the burgled firm called, he identified the cloak as his, and gave the correct number of the bank-note.

Charles was in the bouse when Mrs.
Brown arrived, and he was surprized to see her return home accomponited by two men; but he was still more accompanied, however, when Mrs. Brown pointed bowards him and said, "There is the man who gave me the cloak!"

" Copped."

"Gopped."

So surprised was he that he could make no resistance when the hand-culis were snapped upon his wrists.

Charles was arrested and lodged in prison—and so was Mrs. Brown.

At the trial Charles was found guilty of burglery, and Mrs. Brown of being an accomplice, and an accessery before and after the fact.

In view of his youth he was sentenced to fitteen months' imprisonment.

How to Keep Roots for Winter Uss,
—All roots should he as fresh and
juicy after being stored for the winter
as when they were taken from the
ground. There are three practical
methods of storege: I—Burying in the
sarin. 2—Hearing on the cellar floor.
2—Bearing them in sand.
Whichaver way you store you must
see that light is excluded or the vegciables will grow, and that the roots
are protected from intense celd.
Ever stering on the cellar floor, first
put salt hay on the floor. Heap the
roots in a pyramid-shaped pile of convenient size for getting it on the hay.

Cover the pile with earth, which will also fill the spaces between the roots. A final covering of hey over the earth to the depth of two or three inches makes all sang for the process of early winter's cold. As the weather gies more server, said more and more hay to prevent frazing. Beets will keep only it buried in the serial free root to about the size of a here cg, then litted and buried in the ground will keep fairly well, but even then the chances are that they will leep much of their sweetness and become woody. Beets must be handled vory carefully to prevent them from bleeding. Cut the top leaves of, but not colors, about two inches from the root. The rootlets must only be shortened, not cut off. Celerine must have all the leaves but the sop ones taken off. If the top ones are removed the plant will devote its energies to making more, and so the quality, will deteriorate.

Fatenties are actually improved by a touch of drost. They can be left in the ground all winter.

In making your plans for the storage of your roots for the winter try to so menage that you have a sufficient supply for six months. Do not have to go on "short commons" or without any for two or three weeks in the spring while waiting for the fresherop to mature. Better have toe many than too few.

This department is established for dealing more particularly with spiritual matters, and those things that belong to seldiership in the Selvetion Army. if you are in doubt about anything, ask the doubt Editor.

J. H. You are confusing Articles of Wer with Candidates' Forms. Sol-dlers of the Army have no papers to sign relating to marriage. A Cendi-date—that is, a person who gives himself to the Salvation Army for nitereship-promises that he will not refer three years after en-cing the Training Home, and then his engagement must be sub-

mitted to his superior officers. The latter, by the way, would never dream of interfering with a suitable marriage. I suppose you are aware that many non-comformist ministers are proscribed a similar waiting time, only in their case it is longer than in the Salvation Army. These arrangements are not made without reason.

As to remaining in the Army until you die, you here overlooked the fact that the pledge is worded: "It is my intention." That means it is your present wish and purpose; no more.

S. Is warrine of uniform anything

S. Is wearing of uniform anything more than sentiment?

The usefulness of the uniform is infinitely greater than can be imagined; it points you out everywhere as willing to help the helpless and save the lost.

If you give your feelings over to God about it, you will soon wear uni-form as a privilege rather than a cross, because it will create so many opportunities for helping others.

opportunities for helping ethers.

M. A. H. When preparing temperance lessons, I often wender at Jesus' first miracle, which was that of turning water into wine. Can you give me any enlightenment?

It is well to remember that at the time when Christ was upon carth there was no "temperance question." It was not a contested point as to whether one should or should not take the juice of the grape as a becoming. This question arose through later Christians recognizing the abuse of what was as common an article of dist to them as milk or occoc with us. what was as common an artist to them as milk or cocce with us. There was at that time no reason

why the Master should not have increased their supply. Had He chosen one of those later contaries in which to appear. His work and teaching would have been exactly accommodated to the times in which we live. He illustrated from His own day and generation, humanly speaking, just as we do to-day.

D. P. P. is not allowed to dress as a Salvationist, Sheuld she, therefore, withdraw from the Army?

eithdraw from the Army?
Certainly not. If you can wear a shield on a mlain dress, that is sufficient to betoken your soldiership.
Wear as plain a hat as you can get, and hope for better days; but do no sever yourself from your commades that would do no good to pryody, and only harm to yourself.

### SOHGS. 添 \* SALVATION

#### Salvation.

Tunes.—The Blast of the Trumpes (N. B. B. 188); Fiallelujah, Tis Done (N.B.B. 193).

The blast of the trumpet, So loud and so shrift, Will shortly re-echo O'er ocean and hill.

Chorus. When the mighty, mighty, mighty trump sounds, "Come, come away!"
Oh. may we be ready on that great day.

The earth and the waters Shall yield up their deed, And the saved ones with joy will Awake from their bed.

The shouts of the angels
Will burst from the skies.
And blend with the shouts of
The saints as they rise.

nes.—Mercy Still for Thee (N.B.B. 49); Haster Away to Jesus (N.B.B. 49); Haste Away to Jesus (N.B.E.

20 wanderer, knowing not the smile Of Jeaus' loving laze, In darkness living all the while, Rejecting offered grace; To thee Jehovah's voice doth sound, Thy soul He waits to free; Thy Saviour lath a ransom found, There's mercy still for thee.

There's mercy still for thee, etc.

For thee, though sunk in deep despair, Thy Saviour's blood was shed; Thy Saviour's blood was shad;
He for thy sins was as a lamb.
To cruel slaughter led,
That thou mayst find, poor sin-sick soul,
A pardon full and free;
What boundless grace, what wondrous love!

Tune. -- Down Where the Living :

7 O happy, happy dey,
When old things passed away,
Down where the Saviour died for me!
I felt my sins forgiven,
And got a sight of heaven;
There, where the Saviour died for me.

Chorus. There, where the Saviour died for me.
There, where the Saviour died for me.
I saw the cleaning flow.
It washes white La daw.
There, where the Saviour died for me.

I laid my burden down
And started for the crown;
There, where the Saviouz died for me.
My chains are broke at last,
My sins behind Him cast.
There, where the Saviour died for me.

#### How Tasteless and Tedious.

Tunes.—Thou Shepherd of Israel (N. B.B. 111); The Cross New Covers (N.B.B. 112).

(N.B.B. 112).

How tasteless and tedious the hours
When Jesus no longer I see;
Sweet prospects, sweet birds, and sweet flowers
Hawe lost all their sweetness to me. The midsummer sun shines but dim, The fields strive in vain to look gay;
But when I am hany in Him, December's as pleasant as May.

His name yields the richest perfune, And sweeter then music His voice—His presence disperses my gloom, And makes all within me rejoice. I should, were He always thus nigh, Have nothing to wish or to fear; No mortal so happy as I—My summer would last all the year.
